

# CITY OF LODI

## COUNCIL COMMUNICATION

**AGENDA TITLE:** Reject All Bids and Authorize Readvertisement for Bids for 1995 Sidewalk Repair Program and Miscellaneous Concrete Work

**MEETING DATE:** January 18, 1995

**PREPARED BY:** Public Works Director

**RECOMMENDED ACTION:** That the City Council reject all the bids for the 1995 Sidewalk Repair Program and Miscellaneous Concrete Work project and authorize readvertising for bids with amended specifications.

**BACKGROUND INFORMATION:** On December 14, 1994, the City received thirteen bids for the 1995 Sidewalk Repair Program and Miscellaneous Concrete Work project. (The bid tabulation sheet is attached as Exhibit A.) Brett Swisher of Antioch was the apparent low bidder with a bid submittal of \$36,192.50.

Staff is recommending that all the bids for the 1995 Sidewalk Repair Program and Miscellaneous Concrete Work be rejected and requesting Council to authorize readvertising for bids so that certain concerns can be addressed in the specifications. The revisions to the specifications will be as follows:

**1. INCREASE REMOVAL QUANTITIES**

The removal quantities will be increased in anticipation of additional removal work by the contractor. The specifications for this project stated that the majority of the removal work would be done by City crews, but the recent reduction in Street Division manpower may require our contractor to do more of the removal work. In order to obtain fair and balanced bids, the estimated quantities should be as close to the actual anticipated quantities as possible.

**2. DISTANCE REQUIREMENT**

Response-time criteria, in the form of a distance requirement of 25 miles, will be added to the specifications. The specifications will state that a contractor must live or do business within a 25-mile radius of Lodi in order to bid on this project. A contractor will often have to visit the job site during off hours to replace/add barricades, repair broken sprinkler lines, open a clogged catch basin line or do other miscellaneous work. The City and its citizens want a contractor who can respond quickly to complaints and safety hazards needing immediate attention. This will also mean better response for quotes and other consultation for both the City and private citizens.

**3. POSSIBLE EXTENSION**

The specifications will allow the contract to be extended for an additional year if mutually agreed upon by both parties.

**4. ADD ROOT REMOVAL BID ITEMS**

Bid items will be added for root removal. Elimination of the tree maintenance crew in the current budget limits our ability to do this work in a timely fashion. Having the contractor do the work will avoid delays and inconveniences to the public.

Because these are substantial changes to the specifications, it is appropriate to rebid the project.
